

MEEM 5408 Design Automation: Theory and Implementation
Project Proposal - FALL 2004
Due Oct. 8

Functionality

Describe the functionality you wish to create for the final project.

Input:

Transformation/Analysis:

Output:

Functionality Distribution (circle choice on right; explain if necessary)

Geometry/Part information input:	C++ program	Unigraphics	Other
Transformation/Analysis:	C++ program	Unigraphics	Other
Output Visualization:	C++ program	Unigraphics	Other

Use-Cases

Draw a Use-Case diagram and explain.
